Physiotherapy

Aims and Scope

Physiotherapy aims to publish original research and facilitate continuing professional development for physiotherapists and other health professions worldwide. Dedicated to the advancement of physiotherapy through publication of research and scholarly work concerned with, but not limited to, its scientific basis and clinical application, education of practitioners, management of services and policy.

We are pleased to receive articles reporting original scientific research, systematic or narrative reviews, educational, theoretical or debate articles, brief reports, case histories or single case studies. All papers should demonstrate methodological rigour. *Physiotherapy* is peer reviewed by an international panel.
